

## **The Family Practice Chaperone Policy**

This document and the information contained therein is the property of The Family Practice.

This document contains information that is privileged, confidential or otherwise protected from disclosure. It must not be used by, or its contents reproduced or otherwise copied or disclosed without the prior consent in writing from The Family Practice.

The Family Practice is committed to providing a safe, comfortable environment where patients and staff can be confident that best practice is being followed at all times and the safety of everyone is of paramount importance.

This Chaperone Policy adheres to local and national guidance and policy –i.e.- ‘NCGST Guidance on the role and effective use of chaperones in Primary and Community Care settings’.

The Chaperone Policy is advertised through the website and can be read at the Practice upon request. A Poster is also displayed in the Practice Waiting Area.

All patients are entitled to have a chaperone present for any consultation, examination or procedure where they consider one is required. The chaperone may be a family member or friend, but on occasions a formal chaperone may be preferred.

Patients are advised to ask for a chaperone if required, at the time of booking an appointment, if possible, so that arrangements can be made and the appointment is not delayed in any way. The Healthcare Professional may also require a chaperone to be present for certain consultations.

All staff are aware of and have received appropriate information in relation to this Chaperone Policy. All trained chaperones understand their role and responsibilities and are competent to perform that role.

There is no common definition of a chaperone and their role varies considerably depending on the needs of the patient, the healthcare professional and the examination being carried out.

Their role can be considered in any of the following areas:

- Emotional comfort and reassurance to patients
- Assist in examination (e.g. during IUCD insertion)
- Assist in undressing
- Act as interpreter
- Protection to the healthcare professional against allegations / attack)
